CALENDAR EXPLANATION

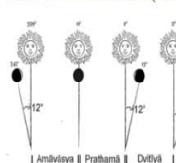

महाक्रष्ण वर्षिष्ठा। यस्मिन् पञ्चे वत्र काले येन दृग्गणितक्रम्य। दृश्यते तेन पञ्चेण कुर्यात्तिथ्यादिनिर्णयम्॥

Bigest misconception is "Indian Hindu festivals observance date in the Indian calendar / panchanga is applicable for all location in world". Observance dates from Indian Panchanga is valid only in India and is not transferable to other locations. Another misconception arises due to the time zones differences as USA/Canada and Europe is behind in time then Festival will come a day later in USA/Canada and Europe. This is incorrect. Tithis, Nakshatras, Yoga and Karana are events, they end at the same time instance all over the world. After calculating tithi and nakshatra end times in local timezone, the different rules help to determine each festival. The local sunrise, sunset, moon-rise, and moonset times are used with Tithi to determine festivals. Hence, sometimes festivals may appear on the same day as India or a day before in the countries west of India. The countries east of India the festival may appear on the same date as India or a day later.

Hindu day changes at the sunrise (not midnight), a Hindu day (Vaara) is from one sunrise to another sunrise. The Hindu date (tithi) doesn't change at the midnight, and it is not always fixed 24 hours long it can be anything between 19 to 26 hours. Each 12 degrees distance between the Sun and the Moon is Tithi. The tithi, nakshatra, yoga and karama are based on geocentric positions of the Sun and the Moon. This astronomical phenomenon happens at the same time on the earth everywhere, and hence thithis, nakshatra will begin and end at the same time all over the world, and we must convert them to our local timezone. Indian panchang makers convert this times to Indian time. Likewise, other countries needs to convert these times in their time zone from UTC.

For example: October 17th 2008 the Ashwayuva (Ashwin) Krishna Paksha tithi Tritiya ends at 16:39:21 Indian Standard Time, and chaturthi starts. That means at 16:39 hours there is tritiya still prevailing in India. The time difference with Seattle and India is 13 hours 30 minutes (with day light saving time the difference is 12 hours 30 minutes from IST). So, let's subtract 12 hours 30 minutes from the 16:39:21. That gives us 04:09:21 AM on October 17th. So on October 17th after that time we'll have chaturthi tithi and before we have tritiya. The earth doesn't wait for tithi or festivals to arrive in your timezone. **The sun doesn't rise instantly at the same time all over the world Hence we need local sunrise, sunset, moonrise and moonset times, along with Tithi, & Nakshatra ending times to determine festival date and time.**

How festivals are determined? The sankathara chaturthi the chaturthi tithi must be prevailing during the moonrise time. Moonrise in New Delhi on a given date is at 19:36 and in West Bengal, Kolkatta is at 19:25 PM. Now tritiya ends at 19:32 PM IST. So Kolkatta will celebrate karva chauth/sankathara chaturthi on the Tomm where as people in New Delhi will celebrate on the same day. **Timings in this calendar are end timings of the Tithi and Nakshatra and for Sun/Moon entering time when it enters a new rashi.**

it can be anything between 19 to 26 hours. Each 12 degrees distance between the Sun and the Moon is Tithi. The tithi, nakshatra, yoga and karama are based on geocentric positions of the Sun and the Moon. This astronomical phenomenon happens at the same time on the earth everywhere, and hence thithis, nakshatra will begin and end at the same time all over the world, and we must convert them to our local timezone. Indian panchang makers convert this times to Indian time. Likewise, other countries needs to convert these times in their time zone from UTC.

There is a common misconception that Makara Samkranti is the Uttarayana. This is because at one point in time Sayana and Nirayara Zodiac were same. Every year equinoxes slides by 50 seconds due to precision of equinoxes giving birth to Ayanamsha and causing Makara Samkranti to slide further. If you think Makara Samkranti is uttarayana then as it is sliding it will come in June after 9000 years. All Drigganitha Panchanga makers like mypanchang, Rastrya Panchang, Jannabhumi Panchang, will use the position of the tropical Sun to determine Uttarayana and Dakshinayana. Hence January 14th isn't Uttarayana. Actual Uttarayana occurs on December 21st/22nd of every year. The same for Ritu. Rutus are always observed based on Tropical position of Sun.

Uttarayana/Dakshinayana: The season occur based on earth's position around the Sun. This is due to Earth's tilt of 23.45 degrees. The Earth orbits around Sun with this tilt. When the tilt is facing the Sun, we get summer and when the tilt is away from the Sun we get winter. **This tilt creates an illusion that the Sun travels north and south of the equator.**

The Uttrayana (Winter Solstice) is the Sun appearing to move north. The Dakshinayana (Summer Solstice) is the Sun appearing to move towards South. This causes seasons, equinoxes and solstices.

ABOUT TEMPLE

Sri Ramacharyulu was blessed by Shirdi Sai Baba in coming up with a Sai mandir in Texas. He was a priest in Sai temple, Florida for 4 ½ years. Sai made Ramacharyulu, as an instrument to come up with a Sai mandir in Texas. He was immensely blessed by Sai.

In the end of the year 2004 Ramacharyulu went to Shirdi for Sai darshan and he wanted to have Sai Vigraham (Pratima), he went to a shop and he bought the pratima of Sai, to his surprise the shop keepers without being requested took the Sai pratima to Samadhi Mandir, kept in the lotus feet of our Sai Maharaj and then gave the same to Ramacharji.

He was really amazed by this blessing and felt that Sai wanted to bless him this way. He brought the small Pratima of Sai and started doing poojas. On Thursdays he was performing abhishekam and bhajans at his apartment and devotees got to know about all this and started to attend pooja at his home. This was happening from the year 2005 till the new mandir came into form. Meantime, two other Sai devotees by named Satish Rangarajan and Govinda Rangarajan were also been inspired by Sai with the thought of coming up with Sai temple joined hands with Ramacharji.

Sai mandir was registered in the year 2005 and baba had blessed Satishji to be instrumental in getting the pratima from Jaipur. Sai's pratima traveled from Jaipur-Bangalore (Shri. Gopal Baba in Bangalore performed pooja to Sai) Bangalore-Mumbai- Newyork shipped, From New York by road to Texas.

During the initial days of temple opened it was a small sai community of about 100 devotees used to visit. Now with thousand of devotees seeking Baba Darshan on special days/events the committee is planning to build the bigger temple to serve all the sai devotees in Dallas metroplex.

Sri Ramacharyulu Mukkotipuram

PANCHANGA BY MYPANCHANG.COM CALCULATED AS PER DALLAS, TX USA'S LONGITUDE & LATITUDE,
TITHI, NAKSHATRA TIMINGS ARE END TIMES, WHEN ONE ENDS ANOTHER BEGINS.

WHEN TITHI OR NAKSHATRA ENDS PAST MIDNIGHT "MON DATE" IS INDICATED AS
HINDU DAY IS FROM ONE SUNRISE TO ANOTHER SUNRISE.

ALL TIMES ARE TITHI END TIMES, WHEN
TITHI OR NAKSHATRA ENDS PAST
MIDNIGHT THEREFORE NEXT DAY SUNRISE
TIMES ARE THE SAME AS PREVIOUS DAYS.
SUBTRACT 24 HOURS FROM THE TIME
TO ARRIVE AT THE TIME BEFORE
SUNRISE, FOR EXAMPLE IF YOURS ARE
23:00 THEN THE ACTUAL TIME WILL BE
PAST MIDNIGHT AND BEFORE SUNRISE
5:30 AM.
